Radio Station To Be Designated As WNTC

In a letter received this week from the Intercollegiate Broadcast System, it was learned that the Clarkson - P.S.T.C. radio station had been assigned the call letters WNTC. These call letters were formerly the call letters of WNBX, a television station of the National Broadcasting Company.

General chairman of the Clarkson committee, Daniel Weinberg, announced that the long awaited sample constitution and suggested building plans had arrived from I.B.S. These were requested by the steering committee which met during the summer, to approve the radio station. This eight member committee was headed by Dr. Frederick W. Crumb and Mr. Jess Davis, and other faculty members of both colleges.

The purpose of this constitutional committee will be to set up the student management and control of the station, with subcommittees and faculty advisors to carry on the various phases of broadcasting, such as programming, engineering and business, and many other things connected with radio.

The members of the committee from P.S.T.C. are: Miss Mary Smith, Crane Junior; Mr. William Moonan, Crane Sophomore; Miss Elizabeth Bailey, G.E. Junior; Miss Caroline Longfritz, G.E. Junior, and Mr. Verne Jeffers, G.E. Junior. The Clarkson representatives will be Mr. Daniel Weinberg, general chairman; Mr. Lionel Hoffman, Mr. Leo H. Thompson and Mr. Tom Harris in charge of engineering and technical details, and Mr. Ronald Elliott in charge of publicity and advertising.
